

**BALTIMORE AIRCOIL AUSTRALIA**

# Certificate of Compliance

PRODUCT:	PT2 Cooling Towers	DATE:	22/09/2020
----------	--------------------	-------	------------

Baltimore Aircoil Australia manufacture and supply a range of PT2 induced draft, counterflow, open, evaporative cooling towers. These products have localised design and are manufactured in accordance with the following Australian and New Zealand Standards and Codes:

- AS/NZS3666: 2011 Parts 1, 2 & 3; Air-handling and water systems of buildings - microbial control.
- AS/NZS4180.1: 1994 - Drift loss from cooling towers - Laboratory measurement Chloride balance method
- AS/NZS1657: 2018 Fixed platforms, walkways, stairways and ladders - Design, construction and installation
- AS/NZS4024: 2014 – Safety of Machinery
- MEPS2: 2012 - Minimum Energy Performance Standards for electrical equipment
- NCC: 2019 – National Construction Code Section J Energy Efficiency (subject to correct application)

We highly recommend that system designers, installers and maintainers of this equipment make themselves aware of their responsibilities under these standards and codes to meet and maintain compliance.
