

The SERVICE EXPERT for BAC equipment

SERVICE

TAILORED SERVICES AND SOLUTIONS
FOR YOUR BAC COOLING
TOWERS AND EQUIPMENT

ORIGINAL SPARE PARTS AND FILL

FOR AN EFFICIENT, SAFE AND YEAR-ROUND RELIABLE OPERATION

We develop, design, test and manufacture most **parts, fills and eliminators in house** to ensure the highest quality and performance and safest operation.

We exclusively offer genuine BAC parts and fills to:

- ✦ maintain the designed thermal performance
- ✦ lower the risk of premature failure
- ✦ achieve the lowest year-round operating cost
- ✦ guarantee safe operation

Using BAC original parts, ensures a **first time fit** and offers **full traceability** of your equipment history.

Original spare parts and fill

SERVICE SOLUTIONS

PREVENTIVE MAINTENANCE, REPAIRS, REFURBISHMENTS, CLEANING AND DISINFECTION FOR RELIABLE, TROUBLE-FREE OPERATION

BAC's experienced service technicians ensure the **highest quality** work and expertise for any repairs or refurbishments.

We offer several **maintenance programs** for your BAC equipment. Our technician records the work done and makes suggestions for **replacement parts** or **remedial measures** to restore optimal operation and safety levels of your system.

Our service team can also assist you with:

- ✦ rigging supervision
- ✦ start-up and commissioning
- ✦ cleaning and disinfection

All for the **most cost effective** and **most reliable operation** of your equipment.

Preventive maintenance and skilled repairs

Rely on BAC's expertise to optimise your cooling equipment

Get your detailed and illustrated inspection report from BAC's expert via our **UNIQUE tool**

BAC Inspect

Your inspection benefits

- ✦ OPTIMAL PERFORMANCE
- ✦ LOWEST OPERATING COSTS
- ✦ YEAR-ROUND RELIABLE OPERATION
- ✦ MINIMISE DOWNTIME

Water treatment

UPGRADES AND NEW TECHNOLOGIES

SAVE ENERGY AND IMPROVE MAINTENANCE BY UPGRADING YOUR SYSTEM

Most existing BAC equipment can be **upgraded** with new BAC technology and components.

Depending on your needs, you can:

- ✦ improve **maintenance** and accessibility
- ✦ enhance **operational safety**
- ✦ reduce **sound emission**
- ✦ **save on water** and/or energy
- ✦ increase **performance**
- ✦ increase **reliability**
- ✦ **monitor** your system **online**

These upgrades are essential to **improve** your equipment's **efficiency** and comply with any **new regulations**.

Upgrades and new technologies

WATER TREATMENT SOLUTIONS

EQUIPMENT FOR CONTROLLING CORROSION, SCALING AND PROLIFERATION OF BACTERIA

We offer a full range of **water treatment equipment optimised** for use in combination with your BAC equipment to **minimise water usage**, and control corrosion, scaling and bacterial growth.

We equally help you to control airborne contamination by installing **filtration equipment**. Together with the basin sweeper piping, our filters keep the recirculating cooling water **clean**, **optimise** the chemical usage and **minimise** the need for **physical cleaning**.
